

# Relational Spaces'

## Membership Agreement

Relational Spaces is an association where we **support each other and the participants of our activities**. We see ourselves as both **a business and a community**, a space where we **support each other to thrive and develop, as adults and human beings**.

Members of the association are **people who actively facilitate workshops, do therapy or work in the space**. As a member you are **expected to have monthly payments to the space of at least a total of 750,-**.

Members are featured on the webpage, can be booked for treatments on the webpage and has their workshops featured in the calendar on the website and Facebook. Also free tea and coffee.

**Every member is also a partner in a learning organization** where everyone can unfold their best skills and also has accountabilities to make things happen.

How do you want to present Relational Spaces to your clients and to participants of your workshops? Is there a way you can support to make it that space that you are proud to invite people into?

We want **colleagues and friends who are willing to make things happen**, who **participate in decision making processes**, who **clean after themselves**, and sometimes after others, who are not just looking for cheap rooms to rent, but also make sure people are also visiting events of other members.

You might have times where you rather need support from others, where you don't have the energy to think about everything related to your accountability. You might want to reach out to another member for that support. In a few days you might be the one who can help, when an ear or a hand is needed.

If you are interested in being a member of Relational Spaces, then **we ask you to agree on some basic things** we have listed below.

### As a member of RS you agree to:

- Leave the space cleaner than you found it.
- Coordinate and cooperate with the other members using the same room(s) as you.
- Leave people in a better state than you found them.
- Take responsibility for the representation of the Spaces.
- Open the door when somebody rings the bell.
- Support in any way that we can pay the rent each month.
- Take responsibility for small or bigger tasks. (You will get a list of all the responsibilities in your first interview with one of the existing members.)
- ...

**This is a living document** which can change and grow by petting and feeding it. 4 times per year we meet for a day and work together on reframing and rephrasing the agreement.
